Why: **Premier Gordon Campbell** has been dedicated to building a province that is economically strong and creates opportunities for families and individuals. As Premier of the province, he has cut taxes, and made record investments in infrastructure such as hospitals, highways and social housing. He worked hard to create jobs and transform the province’s economy, to protect the environment, and to strengthen relations with first nations.

Since the Campbell plan was put in place, B.C. now has among the lowest personal income tax rates in the country. Investment was encouraged by reducing business taxes and eliminating the tax on corporate capital, giving B.C. amongst the lowest corporate and small business taxes of the G7 nations.

B.C.'s economy has dramatically improved and is now one of the strongest in the country. B.C.'s job growth is leading the nation.

Under his leadership, the 2010 Olympic and Paralympic Winter Games put B.C truly on the map.

In recognition of Premier Campbell's commitment to our province please join us to help celebrate his success on February 8th.
